

Job description: Supply Chain Consultant

We are seeking professionals with supply chain experience to join as consultants with our team at Argon & Co, Mumbai.

About Argon & Co

Argon & Co is a global management consultancy specializing in operations strategy and transformation. With over 800 consultants across 18 countries, we help leading organizations transform their supply chains, digital operations, and shared services functions to deliver sustainable results.

Our Mumbai office, originally established as The Progress Group in 2006 and part of Argon & Co since 2020, works across Indian clients and closely collaborates with our global offices to deliver high-impact consulting and analytical support.

We are recognized among the top global operations consultancies and are one of only two firms ranked “Very Highly” for digital operations by Gartner.

Reasons to work with us

- **Global Exposure:** Collaborate with clients and teams across geographies and industries
- **Diverse Projects:** Engage in projects ranging from strategy development and network design to warehouse optimization and end-to-end transformation
- **Collaborative Culture:** Work in an environment that values mutual support, personal development, and team success
- **High-Impact Work:** Drive real change with direct client engagement and ownership from day one

Key Responsibilities

- Collect, analyze, and interpret data related to end-to-end supply chain operations
- Support the design and implementation of supply chain solutions, including:
 - Network strategy and optimization
 - Warehouse design and operational improvements
 - Logistics and transportation planning
 - Inventory and demand planning
 - Manufacturing excellence
- Conduct time studies, process assessments, and benchmarking exercises
- Use proprietary and industry tools for solution development and modeling
- Prepare client-facing presentations and support delivery of recommendations
- Participate in global projects across various regions and sectors
- Contribute to internal tool development and capability building

- Travel to client sites as required

Must have

- Master's degree (M.E./M.Tech/MBA)
- 2–5 years of relevant experience in supply chain consulting or industry
- Strong analytical and problem-solving skills
- Excellent communication skills (written and verbal)
- Preferred Exposure - network modeling, supply chain planning and warehouse design
- Proficiency in MS Office tools, especially Excel and PowerPoint
- Familiarity with tools such as SQL, Power BI, or supply chain modeling platforms (e.g., Llamasoft, Anylogistix, etc.) is a plus
- Detail-oriented, process-driven, and self-motivated
- Comfortable working in cross-functional, international teams
- Willing to travel Domestically or internationally

Job location

Mumbai, India

To apply

Upload your resume and cover letter and select the Mumbai office as location on our [careers page](#), at the bottom. We kindly request that you include “*Consultant- Mumbai*” in the subject line in the cover letter. All applications will be treated with the strictest confidentiality.
